

不鏽鋼防水迫緊式鎖

TM-8164

Stainless steel compression latch

商品介紹 Product description

耐腐蝕·適用於防震動、密封、高品質的組件·能快速安全關閉門板。迫緊動作可將門板及門框拉緊·以確保密封狀態·並有助於減少或消除因震動所導致的噪音以及撞擊聲·更可防止因搖晃或震動而導致的意外開啟。

- 材質：不鏽鋼(SUS304)
- 表面處理：拋光
- 用途：戶外箱體、遊艇火車、捷運車廂

Corrosion-resistant, suitable for anti-vibration, sealing, high-quality components, and can close the door quickly and safely. The pressing action can tighten the door panel and the door frame to ensure the sealing state, and helps to reduce or eliminate the noise and impact caused by vibration, and can prevent accidental opening due to shaking or vibration.

- Material: Stainless steel 304
- Finish: Polishing
- Uses: Rail, aerospace, bus & coach, specialty vehicle.
