

# 單孔安裝自調型壓縮式門鎖

TM-821

Single-hole mount self-adjusting  
compression latches

## 商品介紹 Product description

關閉時，門擋片沿螺柱運動，直到咬合門框為止，再加以旋轉調節鎖的壓縮力；開啟時，輕微旋轉，釋放壓縮並旋開門擋片，使之脫離門框。用戶可調整的間距和壓縮力以適合不同的安裝方式。

● 材質：主體(尼龍玻璃纖維)、擋片(鐵鍍鋅)

When closing, the door stop piece moves along the stud until it bites the door frame, then rotate to adjust the compression force of the lock; when opening, slightly rotate, release the compression and unscrew the door stopper to get it out of the door frame. User adjustable the distance and compression force are suitable for different installation methods.

● Material: Main Body(PA)  
Cam-Iron (Zinc-plating)
